In Memoriam

SHAM D. SOMAN

The student body, both present and future, has suffered a lamentable loss in the untimely death of Sham D. Soman, Assistant Professor of Removable Prosthetics. His moral contribution, love of teaching, deep personal interest in young people, and a sincere interest in scientific pursuits established him as an outstanding example to we who knew him.

We take this opportunity to pay tribute to Dr. Soman, in due cognizance of his lifetime dedication to professional school teaching and his invaluable service to the dental students. But above all we must gratefully acknowledge him for bringing to light in us that vague and yet paramount entity, the state of mind which determines a good dentist. We will miss him.

Dedication

DR. RUSSELL GIGLIOTTI

Associate Professor of Operative Dentistry

There is one face that is familiar to everyone entering the General Practice Clinic. His mild friendly manner and easy-going temperament have won him the respect of every student and faculty member as well. His knowledge and skill as a dental educator, coupled with his endless endeavors to aid the student, are the reasons why the Senior Class of 1968 dedicates this yearbook to Dr. Russell Gigliotti.

Honorary Senior Class President

STANLEY HYDE DOSH

Times were often difficult for the neophyte in many areas of dentistry. It was reassuring to know that one instructor in particular was not only willing but also very capable of advising us whenever we needed guidance. It is in appreciation of this interest in the individual student that the Class of 1968 takes a great deal of pleasure in electing Dr. Stanley H. Dosh as its Honorary Senior Class President.

The Senior's Prayer

ur teacher, who art in Prosthetics
Hallowed be thy name.
By the nail on thy thumb
Will my crown be done
In the mouth.
As it is in laboratory.
Give us this year
Our minimum requirements
And forgive us
Our ice cream cone preps
As we forgive those
Who cancelled out on us.
And lead us not into Periodontics
But deliver us from Operative
For thine is the clinic
The power of the faculty
For ever and ever.
Amen

On September, 1964, ninety-nine men embarked on their careers in dentistry (one member never arrived, thus beginning a trend for the Class of '68). Anatomy and Histology proved to be the first two hurdles, and after three months our number had dropped to ninety. The Sophomore year came — and more of us went. Some additions and subtractions later our number stood at ninety as we shed our "Jungle greens" and donned our Clinic whites.

Before we knew it, 1968 was here, and the remaining eighty-nine were faced with countless big problems: fourteen units of C & B, molar root canals, gold foil requirements (!!). Nonetheless, our Senior year came and went much too fast. It was the year of assignments, more cancellations, and still wondering who Szabo was. But most of all, it was the year of graduation for the Class of 1968.

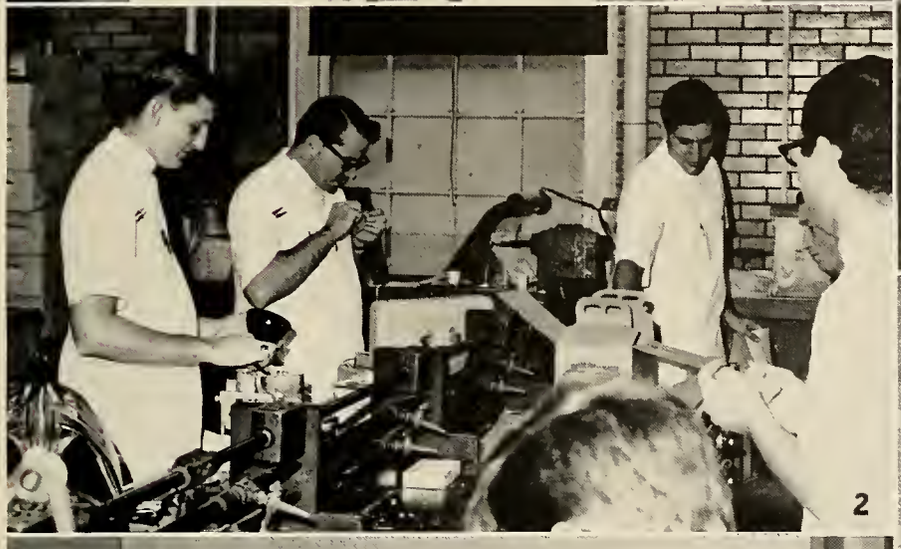
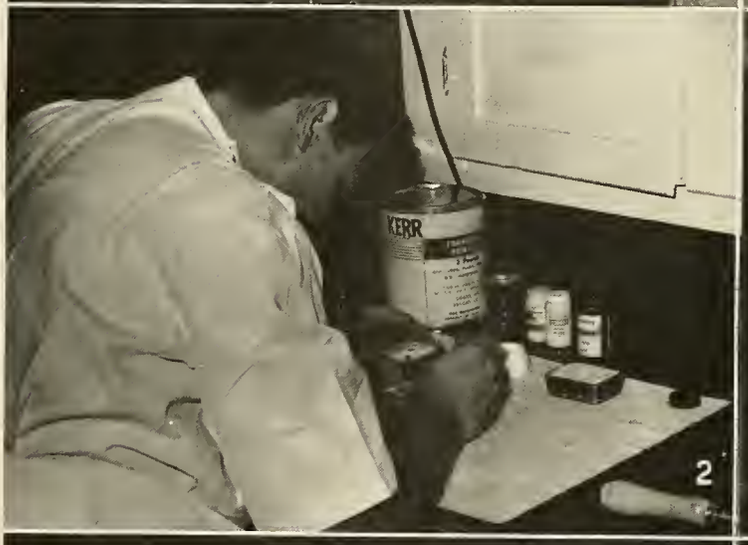
Wha'da ya mean "Who's the dummy?"

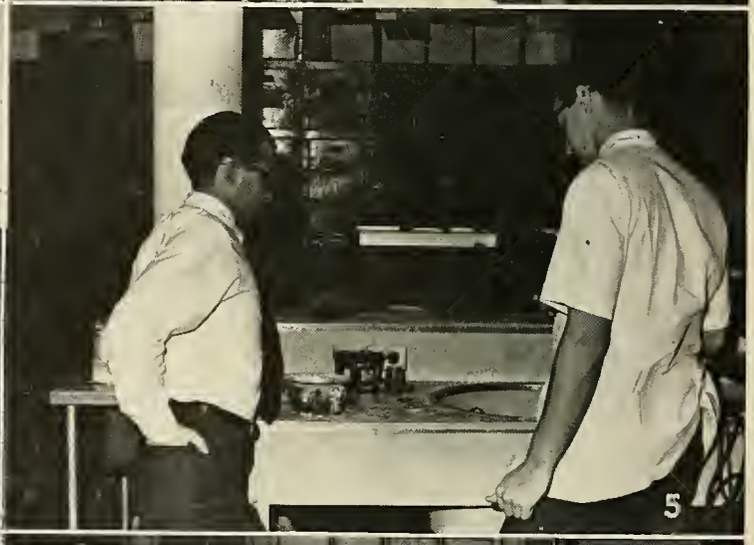
The Seniors



1. Guest lecture in Perio? Why, Larry I'd love to.
2. If I wax this crown up by 12:30, I can still make 2 o'clock post time.
3. It's Greek to me too.
4. Who said dentistry isn't dangerous?
5. That's right Doctor, big hand on the twelve and little hand . . .

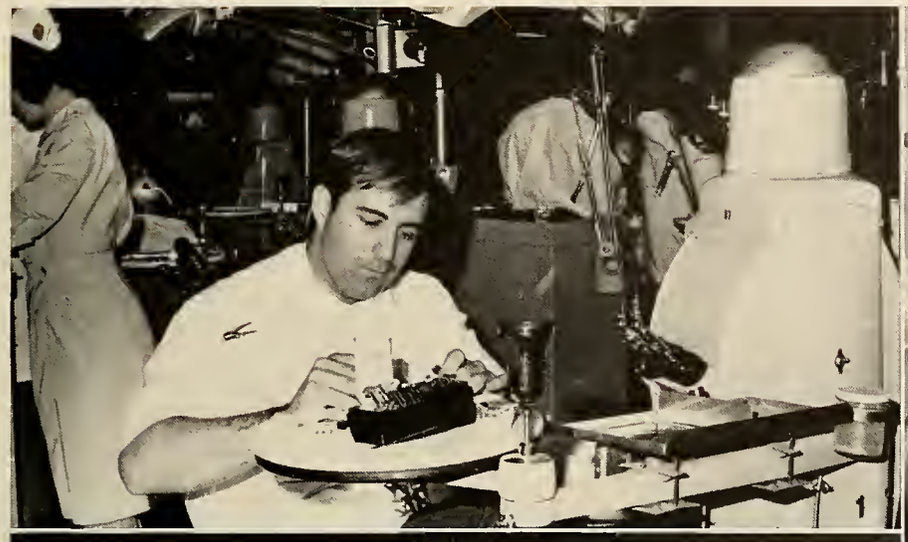
The Seniors





1. Well, Ferraris, it looks like you'll be a sophomore one *more* year.
2. Mother always wanted me to be a lab technician.
3. And here's how I feel about being a dental student.
4. Where's my umbrella? This is worse than Orthodontics!
5. Maybe we can glue the pieces back together, Joe.
6. No, stupid, hemorrhoids aren't in the mouth.

The Seniors



1. First my motorcycle, then my car twice — now my patient's stolen my Kennedy Kit.
2. Two parts gin, two parts vermouth, four parts nose.
3. I'll see your two inlays and raise you a complex foil.
4. I know that #20 tapestry needle is in here somewhere.
5. Just once more, Norm, for old time's sake.

After a long and hard road marred with such impasses as screw exposures, faulty triangular bars, a plethora of ivorine teeth, and B.D.S. deadlines we have made it.

None of us can ever forget looking through that first set of charts, exposing our first pulp, or sitting through those wonderful (?) pre-clinical lectures. Anxiety was at its height when we inserted that first denture with fingers crossed.

Before we realized it, National Boards rolled around and we discovered that, surprisingly enough, our first two years of study weren't for naught.

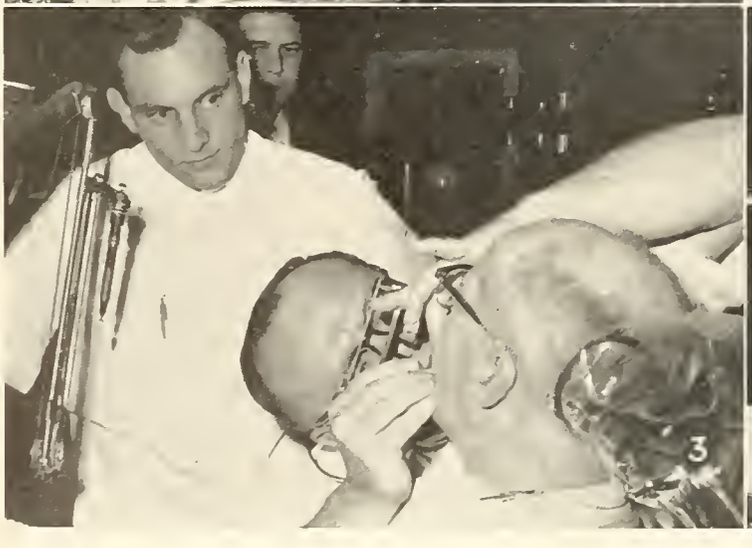
This is the year that we have incorporated basic scientific knowledge with clinical experience in building a sound foundation for a prolific senior year.

First Row: Campbell, J. C., Brave, Eklund, Auger, Bowman, Davis, Killian, Hill, D'Amico, Mankovich, Henshaw.
Second Row: Magee, Macht, Egan, Chamberlain, Askeland, Baker, Bohince, Dickes, Lambson, Duggan, Knotts, Feldman, Facius, Chaput. Bishop.
Third Row: Feinglass, Brenner, Dormer, Gioffre, Heffron, Frank, Byrne, Ezrine, Bullock, Carroll, Berg, Layton, Bradway.

The Juniors

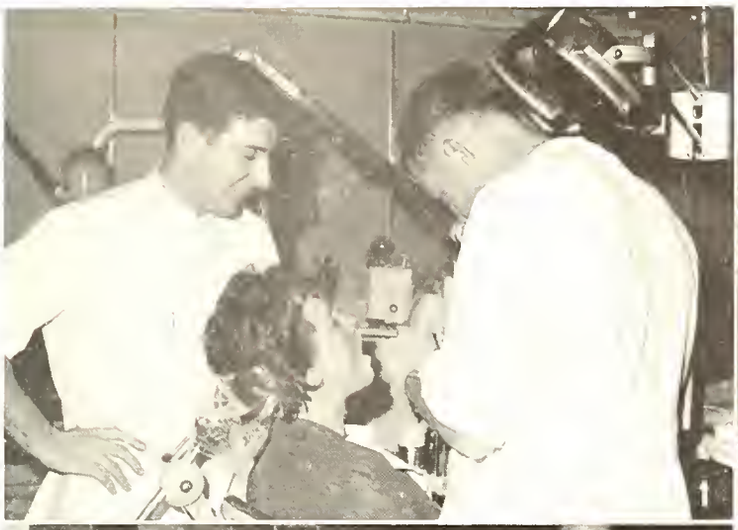
First Row: Miele, Rockoff, McCausland, Rubin, Vallillo, Scott, Warren, Steinberg.
Second Row: Morganstein, Prager, Zwiebel, Moffitt, Tucker, Morris, Radell, Schwartz.
Third Row: Taylor, Rizzolo, Pulliam, Quillin, Tomosivitch, Weiner, Wood, J., Mitcherling, W., Mitcherling, J., Sardana, West, Wood, M., Wanner.
Fourth Row: Maroshek, Schlesinger, Stefen, Title, Sartorius, Schoenbrodt, Trefethen, Winebrenner, Porter, Pellarin, Trussell.

The Juniors



1. I'm new here, where are the cowboys?
2. I was cementing my bridge in the men's room — and guess who came in?
3. I wonder if it's too late to apply to Law School?
4. I think you should also learn to keep your nostrils a little cleaner.
5. And if the clamp won't fit on the tooth, put it on her nose.
6. How could I get an exposure from just a prophy?

The Juniors



1. See how much better the contours can be if you hold her tooth in your hand.
2. . . Next, add a pinch of salt and two peeled potatoes .
3. Hold still — I've got to get practice somewhere.
4. And I answered two questions on the physiboards and got a 97.
5. But Doctor, will rubbing her eyeball with your thumb make her go into centric?
6. I can't sock it to you 'till I get a start.

We are the Sophomores of B.C.D.S., the first of the "New Breed," the *Community Dentists!*

The successful completion of our Freshman year gave us satisfaction and *relief* indescribable, and prepared us for the continuance of our *professional* education in the second year with Microbiology, Physiology, and *Semantics* (Basic Dental Science).

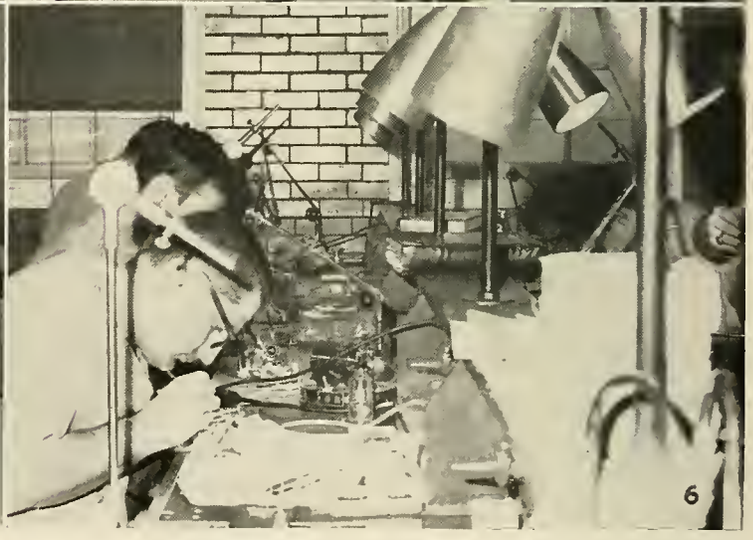
The Class of 1970 is quickly growing anxious to test its newly developed dental aptitudes in the clinic, thus initiating the second half of our dental education.

First Row: Colangelo, DiPaula, Morris, Frey, Frank, Bates, Flaherty, Conrad, Jackson.
Second Row: Brayton, Conway, Carlson, Hershon, Baldwin, Emmons, Cortezi, Burt, Buchan.
Third Row: Dubick, Coviello, Anderer, Elfont, Haskins, Connelly, Carlsten, Gossard, Firmani, France, Fahey, Brooks, Bailey, Cohen, Holland.
Fourth Row: Ceplenski, Blicher, Bennett, Culiner, Bernstein, Coletti, Davis, Bianchi, Katkow, Ashman, Davidson.

The Sophomores

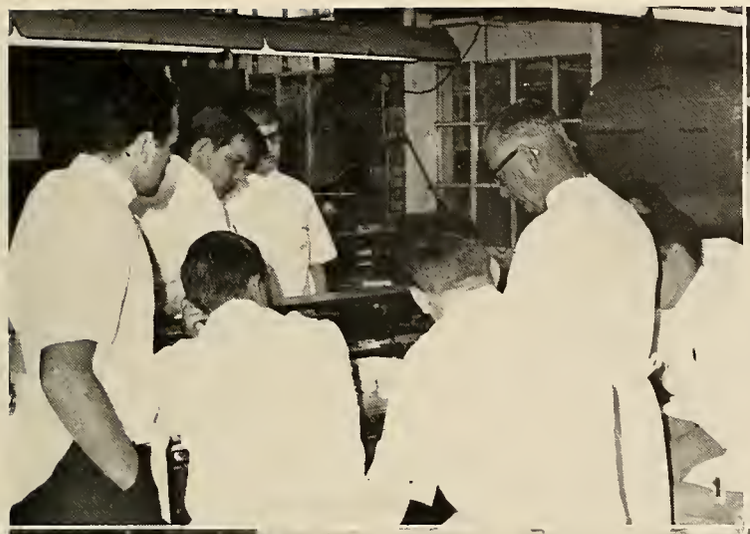
First Row: Snee, Vezina, Rozanski, McHenry, Simons, Klampert, Woods, Nelson.
Second Row: Noren, Whiting, Sabol, Wilson, Maginsky, Lippert, Lee, Pincus.
Third Row: Kenney, Prehn, Wolf, Masterson, Marcoot, Wolfe, Sloan, Siegel.
Fourth Row: Kimmel, Mahaffy, Tifford, Oblinger, Stallsmith, Soper, McDonald, Neach, Steckler.

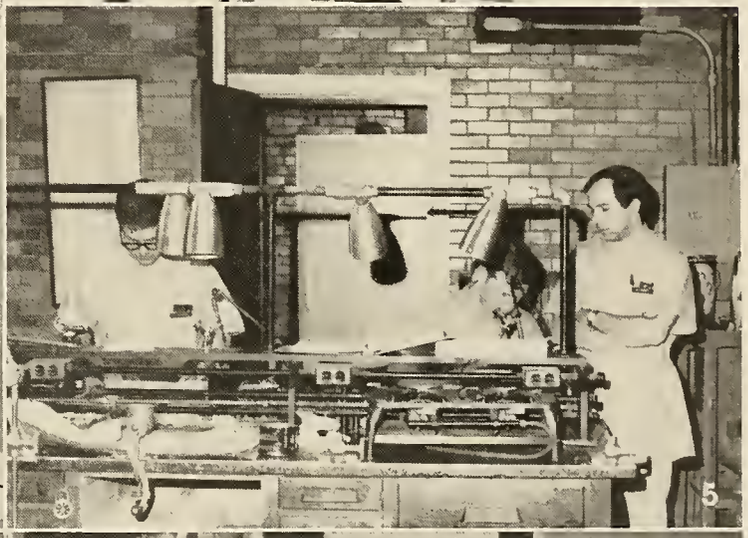
The Sophomores



1. The Dean wants to see *me?*
2. And without further ado, uh, uh, uh . . . I give you, uh . . .
3. What's a girl like you doing in a joint like this?
4. My *mother* liked it!
5. I wonder if Pete needs some part time help in his laundry?
6. Did Cary Middlecoff really go through all this?

The Sophomores





1. Come on lucky seven!
2. . . . and *he* thinks he's going to be a dentist.
3. Get John G. in here to kill this cockroach.
4. I don't think your nails will pass inspection tomorrow.
5. Frank says we've gota move everything out — he's putting in a pool table.
6. He must have had his dentures made here, all he can eat is soup.

The Freshman Class, with a little apprehension and a lot of enthusiasm, started its first day of classes with eight hours of Anatomy — and found that it was already fifty pages behind. Now with infamous Anatomy and Histology a part of our legendary past, we assert more than ever that enthusiasm of those first weeks of school.

Like many of the classes before us, we await hopefully the completion of the new Dental School. To us it will be a real symbol of the "new dentistry" that we are learning about — a dentistry with a broader scope and a larger role in both the community and the nation.

As we taste more and more the reality of dentistry in our early acquaintance with the clinical setting, we look forward to next year when we can learn more and really grab dentistry "by the teeth."

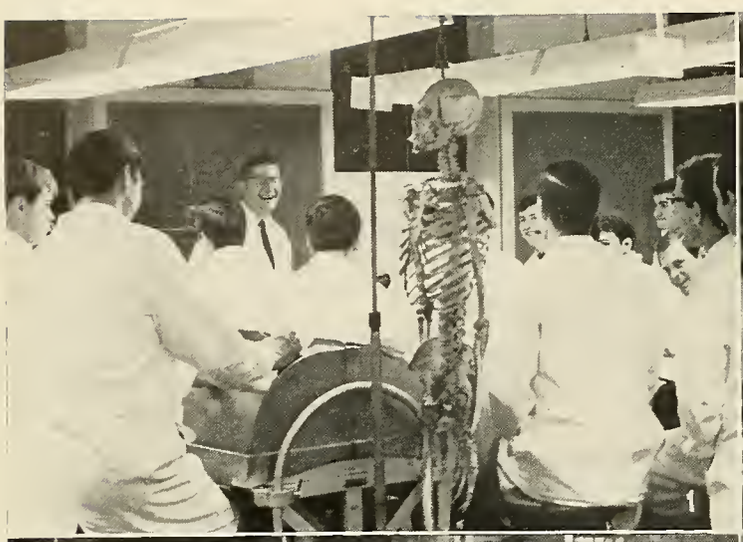
So here we stand, a freshman class, excited and a little awed that we're really here at B.C.D.S. and on our way to becoming members of the dental profession.

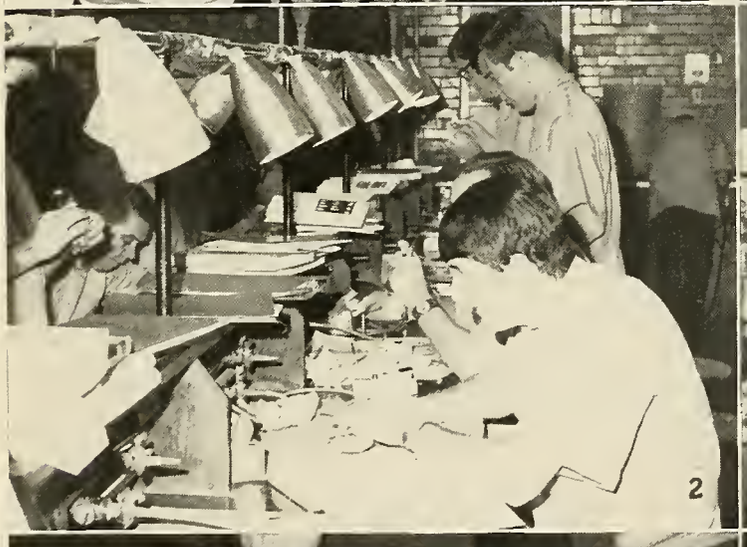
First Row: Hepner, Echols, Kaplis, Ferguson, Merndon, Manik, Boyce, Bresonis, Brown, Kossak.
Second Row: Burrows, Cohen, J., Galbo, Gottehrer, Cohen, V., DiFabio, Cottrell, Cohn, DeCarlo, Gingles, Dolan, Berg, Kobernick, Fagan, Kassolis, Koch, Kaminaris.
Third Row: Bank, Kamens, Krause, Goldfaden, Biars, Fields, Gallucci, Gold, Dowling, Douglas, Abramson, Ettlin, Jones, Gildenhorn.

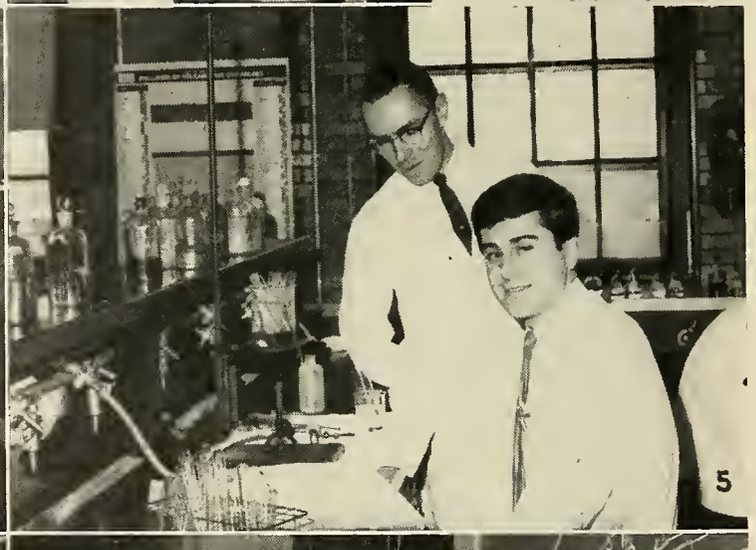
The Freshmen

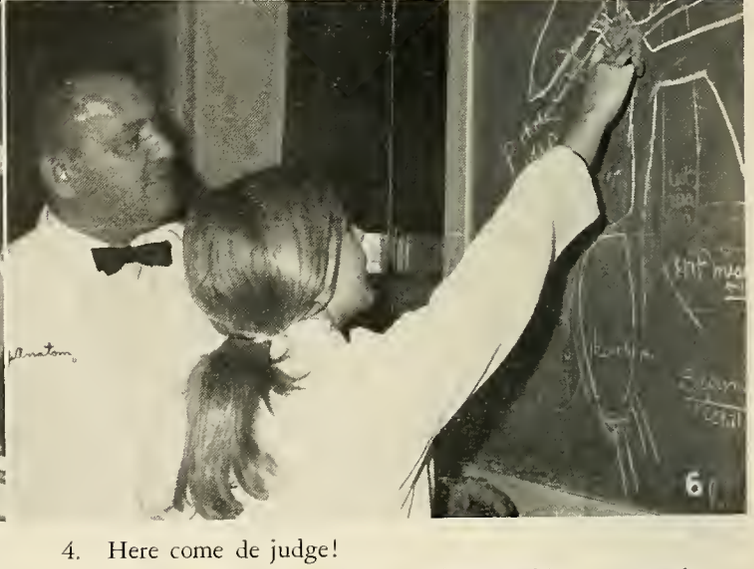
First Row: Moody, Theobald, Lynch, Zinn, Verbos, Weiner, Warnick, Slott, Lerner, Thompson.
Second Row: McGonigle, Pazakis, Spaulding, Nelson, Skupas, Myers, Ostroff, Sitzamer, Oryshkevych, Lavoie.
Third Row: Phillippy, Ward, Walpert, Reinhardt, Ricardo, Rosenthal, Tessler, Pino, Sweeney, Turner, Mallek, Virgilio, Rosenberg, Schopler, Silberman.
Fourth Row: Tribull, Kroe, McConnaughey, Sohr, Zovickian, Levine, Stiller, Smith, Rogers, Yarmosky, Waldron, Robertson, Little.

The Freshmen



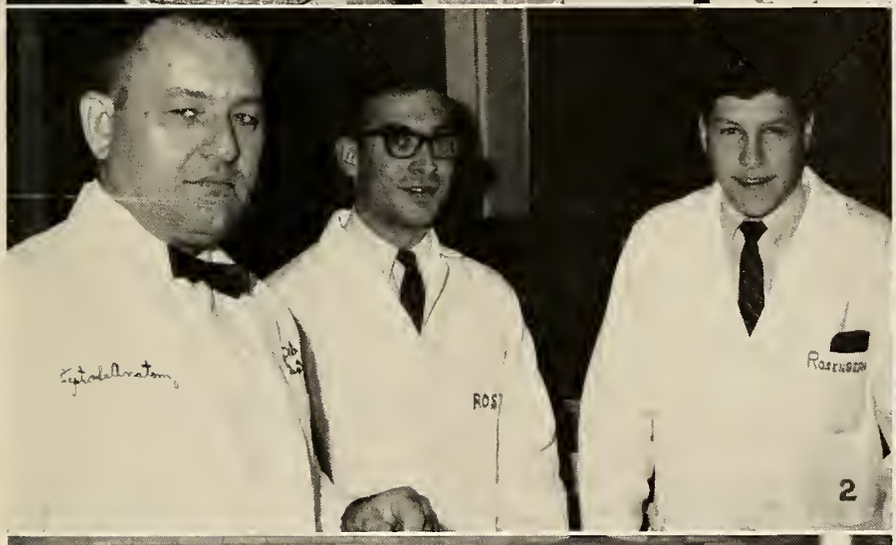






1. Sorry fellas, no females this year.
2. I'm beginning to think I should have stayed with *the Beatles.*
3. Why don't you extract them and make a denture?
4. Here come de judge!
5. This guy keeps bugging me about making too much LSD.
6. . . . Turn left on Paca Street and my house is right here on the corner.

The Freshmen



1. This is just the beginning of all the gas you're gonna get around here.
2. If these two pass anatomy, it'll be over a dead body.
3. Hurry up with that, our tee off time's at 12:30.
4. Somebody turn on the tube, *Secret Storm* comes on in five minutes.
5. Here's something new — intrapulpal retention points for gold foil.

The University of Maryland Student Dental Association works to foster the relationship between the individual student and the faculty and to maintain it by an active system of communications down to the section representative level. Problems are discussed at luncheon meetings with the Dean, who constantly remains abreast of student affairs.

The Executive Committee of the U.M.S.D.A. has formulated a Code of Ethics which is scheduled to go into effect in September, 1968. This Code is a sequela of the year-old Constitution which is being used as a model by other dental schools. This year also saw the publication of a revised student handbook.

Each year the U.M.S.D.A. is the sponsor of three class dances, a U.M.S.D.A. mixer, and the senior banquet. It also administers a short term emergency loan fund for the students.

This year's faculty advisors are Dr. Frank Jerbi, professional advisor, and Mr. Gardner P. H. Foley, financial advisor.

Gorgas Odontological Society

The Gorgas Odontological Society is an honorary scholastic organization, established in 1916. The Society was named in honor of Ferdinand J. S. Gorgas, an alumnus and leading contributor to dental education and literature.

Membership in the Society may be achieved in either the junior or senior year. Consideration for membership in the Society is based on the premise that certain academic standards have been met in the first two years of study.

Monthly meetings afford members educational benefits beyond the outlined dental school curriculum through the presentation of guest speakers. Each year at the spring formal senior members are presented with a key and a certificate. The faculty advisor is Dr. José H. Diaz.

Juniors

First Row: Wanner, Magee, Morganstein, Brenner, Schwartz, Chaput, Title.

Fourth Row: Uhlfelder, Knotts, Chamberlain, West, Calderazzo, Hill, Wood, A., Lagrotteria.

Chartered in 1965, Gamma Pi Delta is an honorary student dental organization with scholarship and interest in the field of prosthetic dentistry as a basis for admission.

The objective of the organization is the advancement of prosthetic dentistry through lectures, table clinics, and other academic activities with its main theme directed towards stimulating the creative interest of the students and the profession in general.

Aisenberg Research Society

President ..... RICHARD J. WALSH

Secretary-Treasurer ..... STEVEN M. BAUM

The Aisenberg Research Society was founded in 1967 by dental students interested in sharing research ideas with prominent dental researchers and each other. The Society was named after the eminent researcher and former Dean of the University of Maryland Dental School, Dr. Myron S. Aisenberg. Among the speakers of interest presented this year were included lecturers from the National Institute of Health and the Lancaster Cleft Palate Institute. Dr. Aisenberg has also presented his own famous research at several of the meetings.

With scholarship and research experience as the main criteria for membership, the Society invites to membership students of all classes who have participated in fellowships either at dental school or some other research institution.

Crown and Bridge

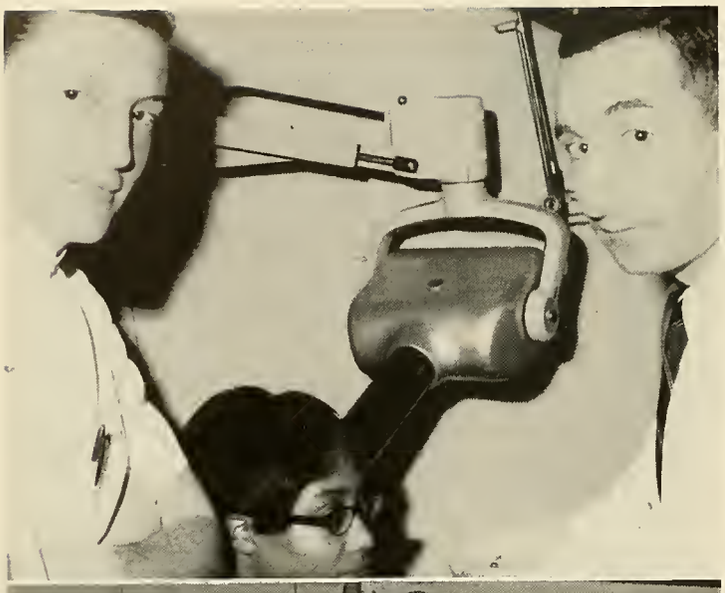
I'll unscrew this one; you go buy another tooth!

Another cancellation, huh!

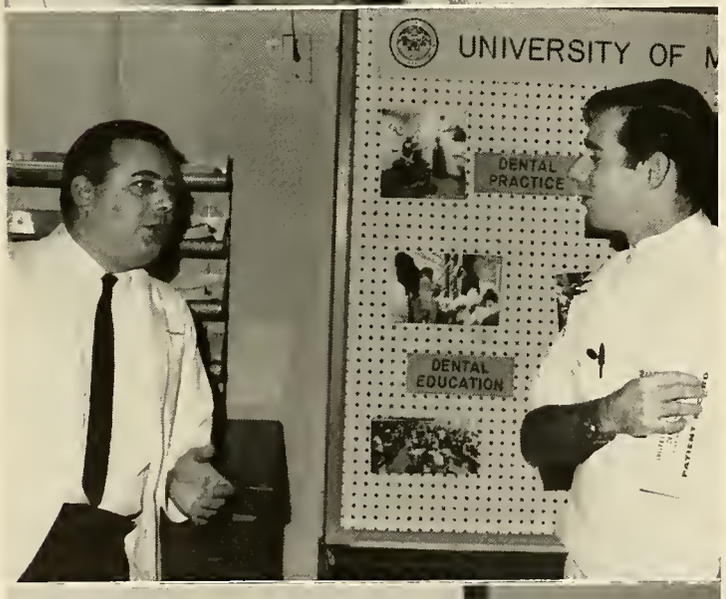
I thought the preps looked better before you came over.

Tell Larry I got his bridge ready to cement.

Diagnosis



She won't talk, Colonel, should I turn on the laser?

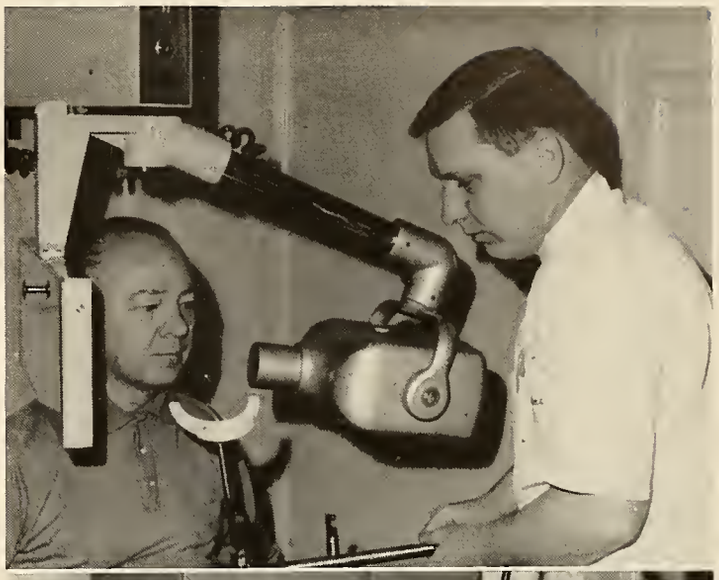


She said she'd prefer treatment from her local witch doctor.

No, I'm afraid we don't have any endo patients with a one-canal molar.

How should we know what to do about a toothache?

Roentgenology



Sure it's a laser beam, why?

I wonder what she's doing tonight?

Now don't swallow this one, it's the only one left.

No, I think this will have to be retaken.

Operative

. . . that's $2 on *Guppy's Delight* to win.

Rog, let me just rest my head here for a minute.

I even tried a new mouth wash this morning—It still didn't help.

That's right Doctor, he strangled to death on the rubber dam.

Dentistry

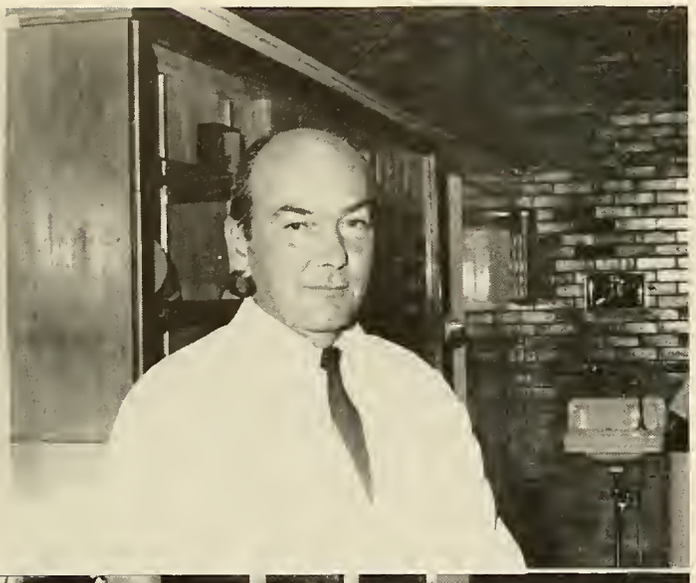
It looks O.K., but let's call Dr. Van over just to make sure.

Dr. Dopson, you take chairs 2-27. José cover 28-50. Vandy, run down and get me a soda.

Two club sandwiches for Dr. Mastrola, a tortilla for me, and a fried fish for Dr. Van.

My knuckles are clean dear, try getting the water in his mouth next time.

Endodontics



Sure *Mr. Clean* is a good debriding agent.

I still can't see it. Bring me two more pairs of glasses.

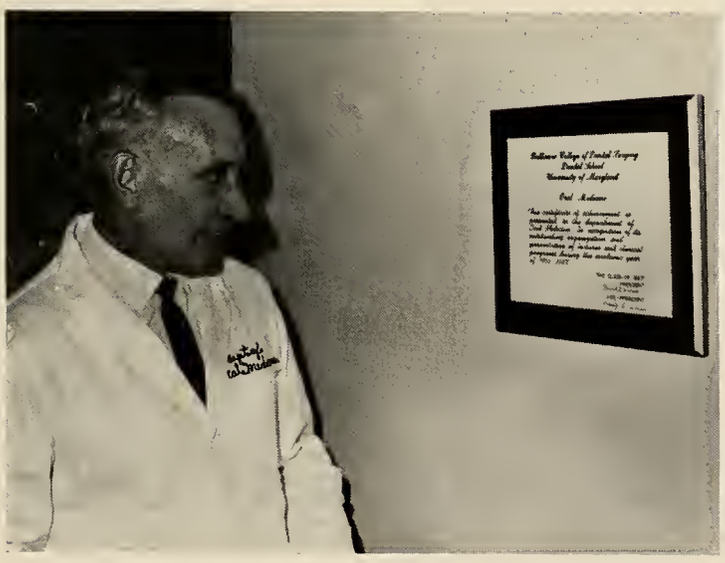
3. Uh, Oh! Here comes Irv.

And if their bracket tray setup is O.K., we'll get them on the shoe shine.

Periodontics

Perio, shmerio. Now I feel like a real dentist.

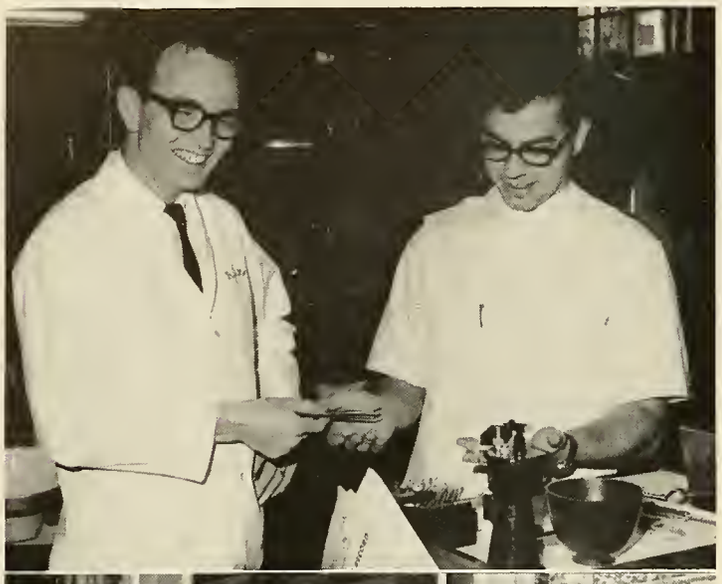
I know it's a full denture, but she still needs some Perio work.



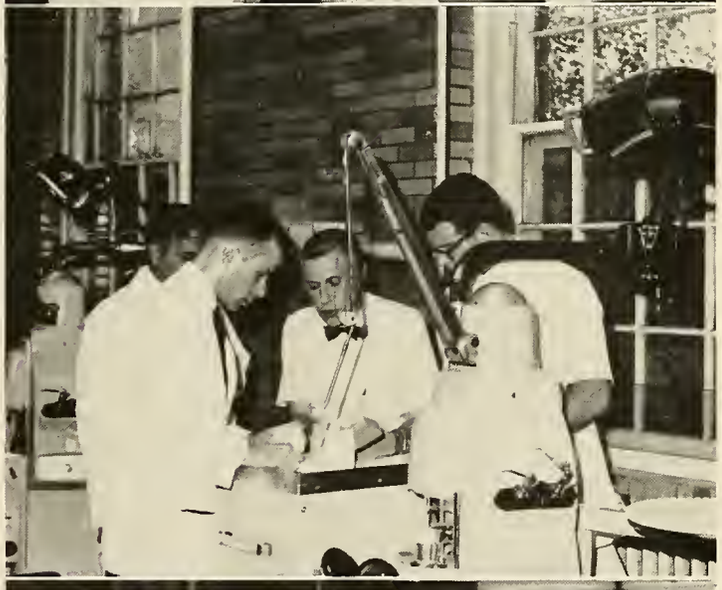
Plaque, plaque on the wall, who's the fairest of them all?

Sleeps on two pillows? She must be married to a sultan.

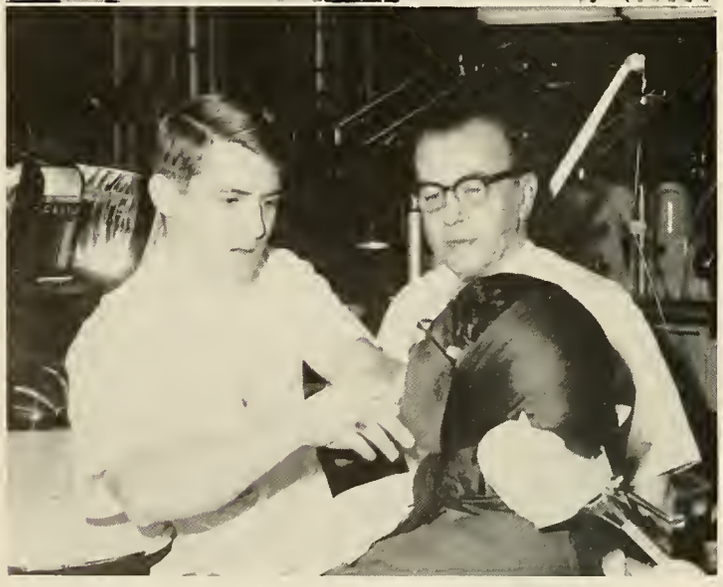
Prosthetics



Thanks Al, these dentures feel great.



Checkmate.



That's funny, there weren't any teeth in here before.

I'll be right back, Doctor; I want to get some cotton rolls for my ears.

Surgery

We'll tie one end of the string around the door knob and the other end right here.

What would Charles de Gaulle say about this?

I guess this is what Dr. Barr means by sit-down dentistry.

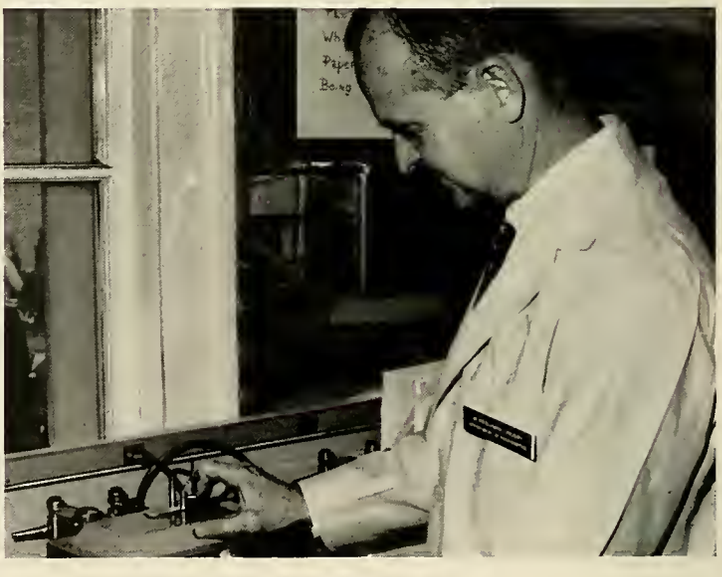
3. Ole! And now for the *Coup de Grace.*

Pedodontics

Bite my finger once more, kid, and you've had it.

Allergic to watermelon?

At last, a student who is shorter than I am.



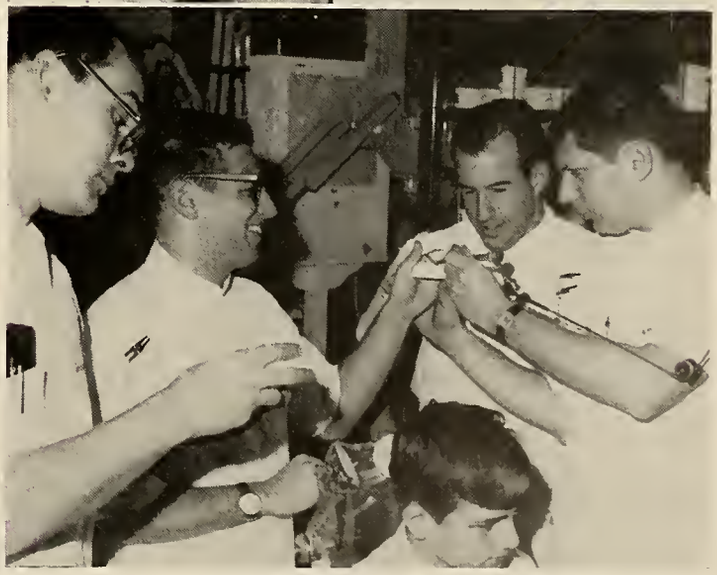
Are you sure Samuel Morse started this way?

Orthodontics

That's right, your teeth are fine; it's your gums that are crooked.

Good diagnosis men. Complete upper, partial lower.

I wish my teeth would come back from the lab already.

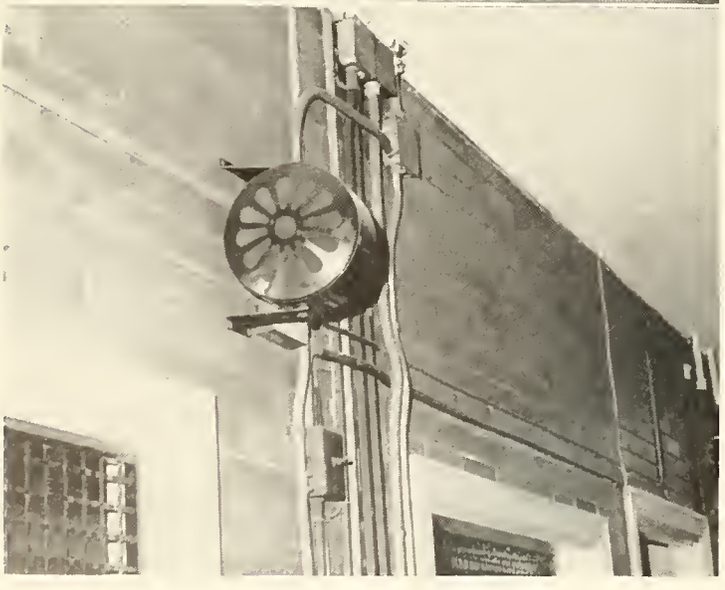


I knew I should have gone to a real dentist.

Miscellaneous

No, naval dentistry has nothing to do with belly buttons.

Progress to date on the new dental school.



Cluck, cluck, cluck. Robert get down here.

You don't think I just take pictures of teeth up here, do you?

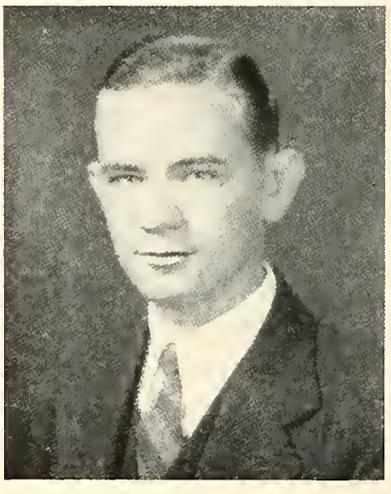
Hall of Fame

A view of the Past

With comments on the Present

In filling his first root canal,
Young Irving said, "I don't know how!"
"I'll just fill with cement,"
To the *Elmer's* he went,
And he's head of the department now.



When to C and B you do go,
The story you'll hear we all know,
Stan tells of his pains,
His stereo gains,
And his operations below.

Said Ernie our graduate famous,
While learning the ascending ramus,
"All this knowledge immense,
This is just common sense,
Why, four years for *this*, it should shame us!"

A lad by the short name of Burton,
With making it longer was flirtin',
Now before quoting fees,
He shows his degrees,
But what his field is, we're not certain.

If you don't scale down to the root,
Then Charlie won't think you're astute,
But if you say "Tartar,"
He'll make you work harder,
And probably give you the boot.

Though Wilbur will talk till he's hoarse,
Of full denture impressions by force,
When asked if he would,
Tell us why he's good,
Said, "I just pop a Jeltrate, of course!"

To be G. V. Black was his wish,
For operative was always his dish,
But a prof who knew better,
Wrote Vandy a letter:
"You'd be better off raising fish!"

Things to look forward to . . .

The trust in a little girl's eyes. Added years of health for an old man. A youngster who's no longer afraid . . .

People you'll help in your new career—things to be proud of—the reason, really, you've chosen dentistry as your life.

Great to contribute so much to so many! And even greater to think of the years ahead—years in which your work, and the way you do it, will be vital to more people than you can imagine.

As the years roll by, our job will be in helping you perform this increasingly complex work. In doing our part, we'll get involved in such things as basic research, product cost control, safeguarding your equipment investment, better office design, work simplification, effective use of auxiliary personnel, service excellence and availability.

It all boils down to one thing: we'd like to help you provide *better dentistry for more people*. That's pretty important to everyone. Good luck in your new career, Doctor!

Porcelain and plastic are completely different materials with entirely different color values. With this Twin-Dial guide you can select the exact Polychrome color for either . . . colors that blend superbly and go beautifully with deeply embedded Polychrome markings simulating the normal imperfections of natural teeth. The result? A true-to-life *three dimensional look* you and your denture patient will be proud of. Let's send you this guide and descriptive booklet.

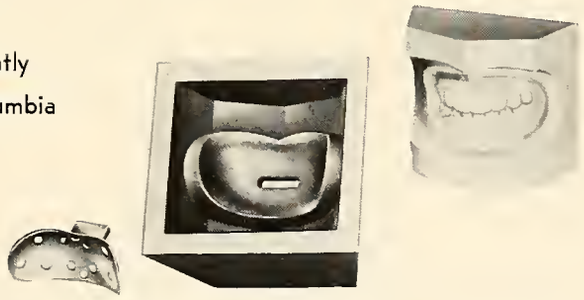
Price $20.00

Anterior-Bite Models Made Neatly and Quickly with the NEW Columbia Anterior-Bite Model Former . . .

Ideal for making models for pre-extraction records for immediate or permanent dentures.



- A special anterior impression tray takes impressions of both upper and lower together; no need for separate impressions.
- Impression tray is then pressed into slot in the flexible rubber model former. With one pouring of plaster or stone a neat, sharply-outlined model of the anterior bite . . . in one piece . . . is easily produced.

Neat, presentable models of the anterior bite are also advantageous in a "before-and-after" demonstration to the patient.

Order today this anterior-bite model former with one tray—Cat. No. 903—$8.50
Extra trays $1.50 each
